

SGT. RED & MINGO'S

Home Is Where the Stream Is!

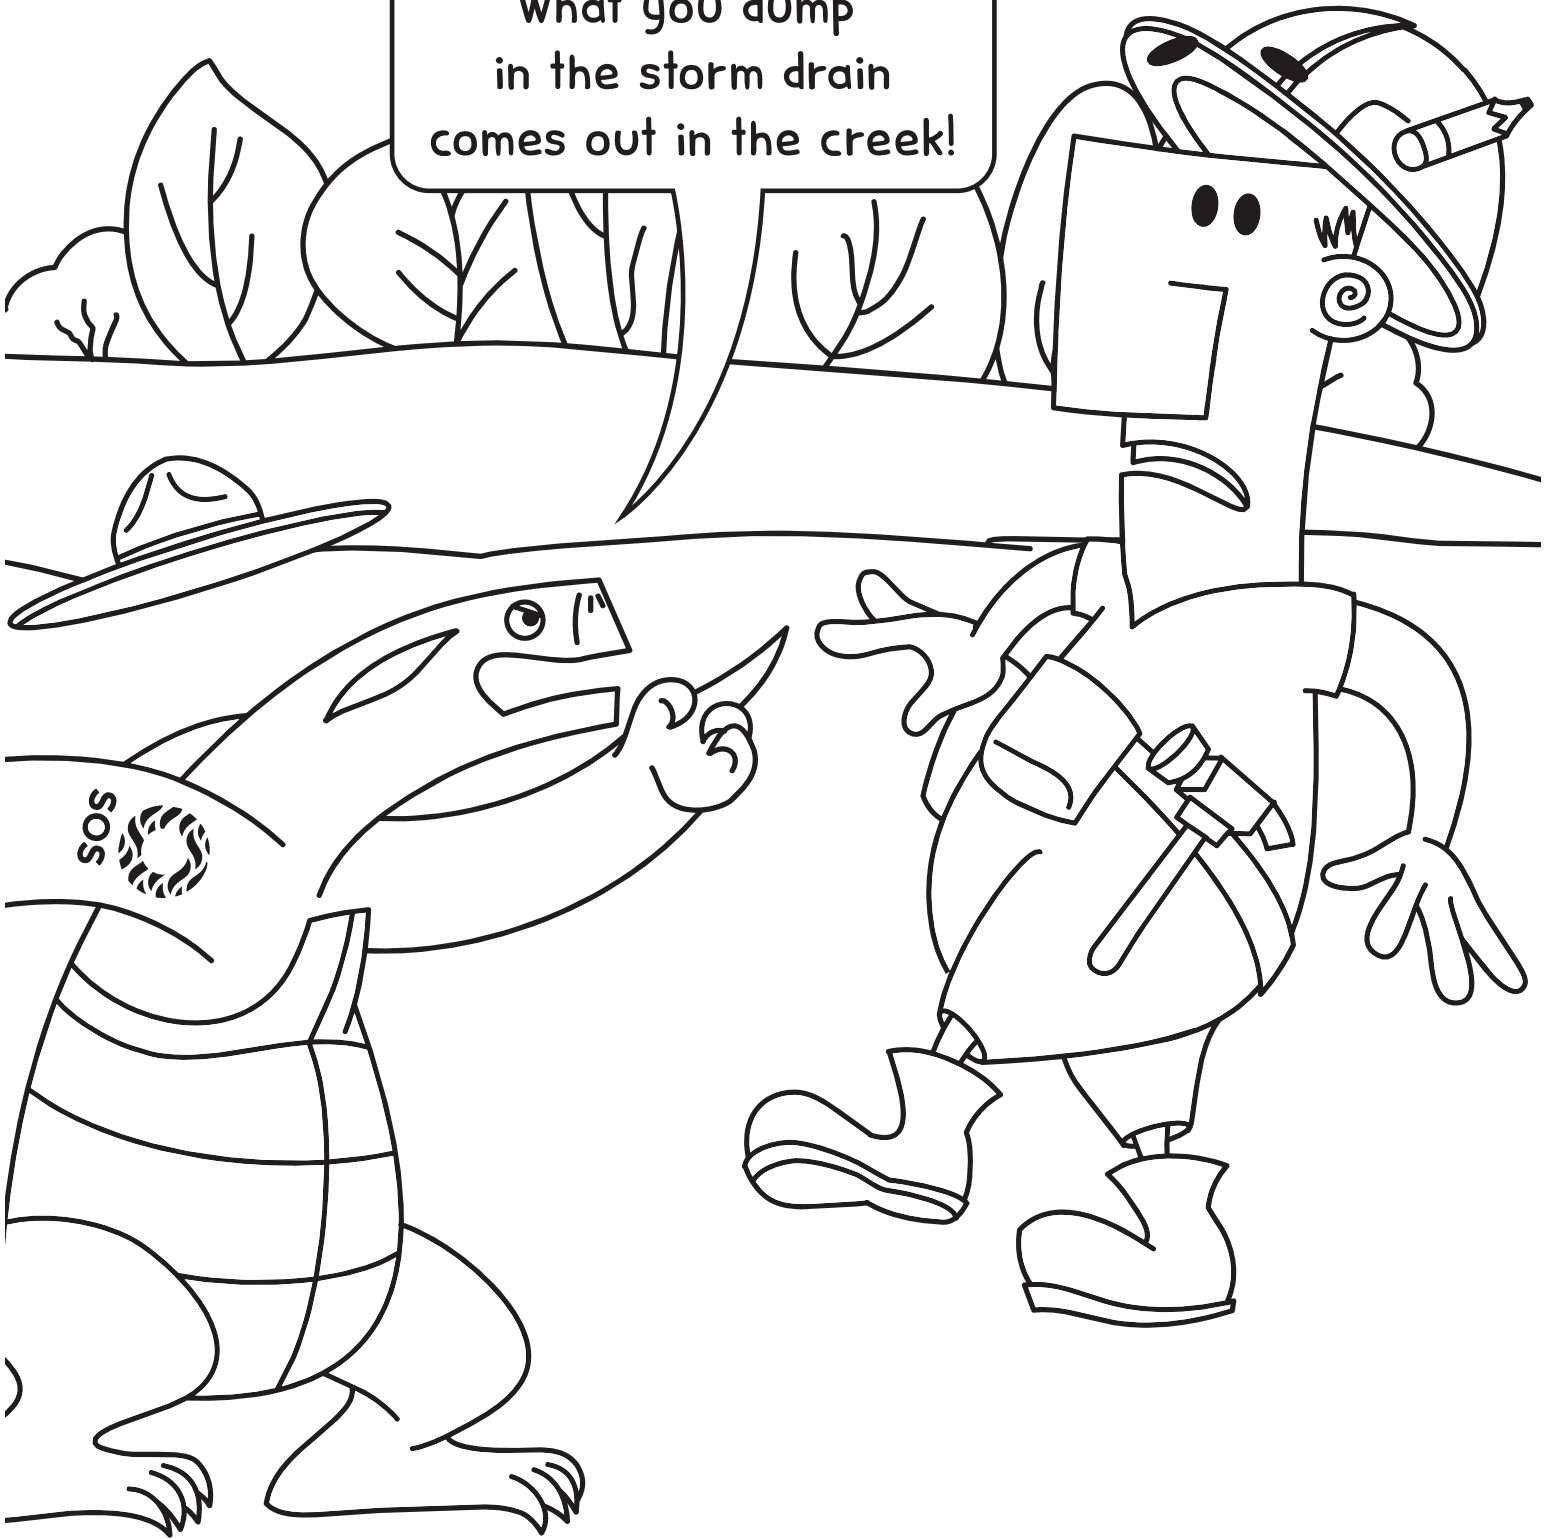

16 Fun Filled Pages!

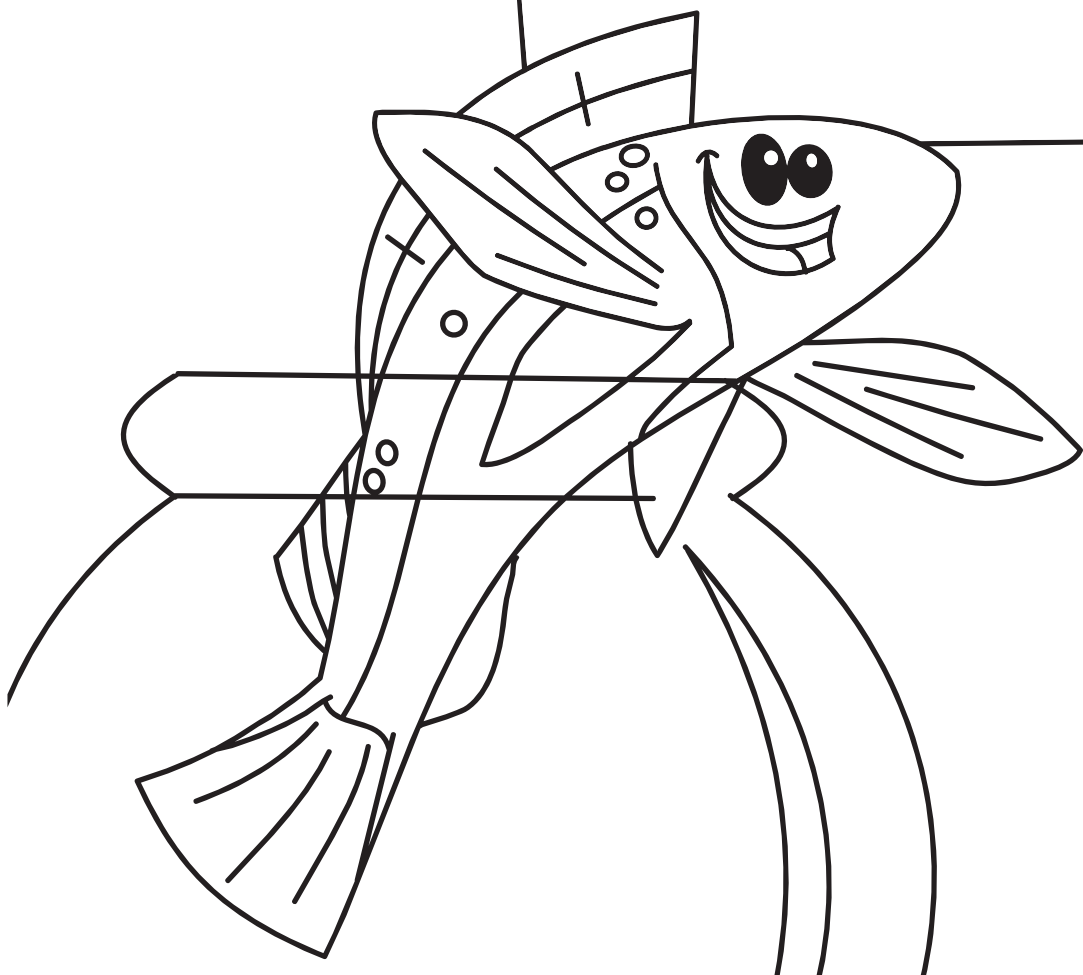

COLORING BOOK

Hold it Civilian!

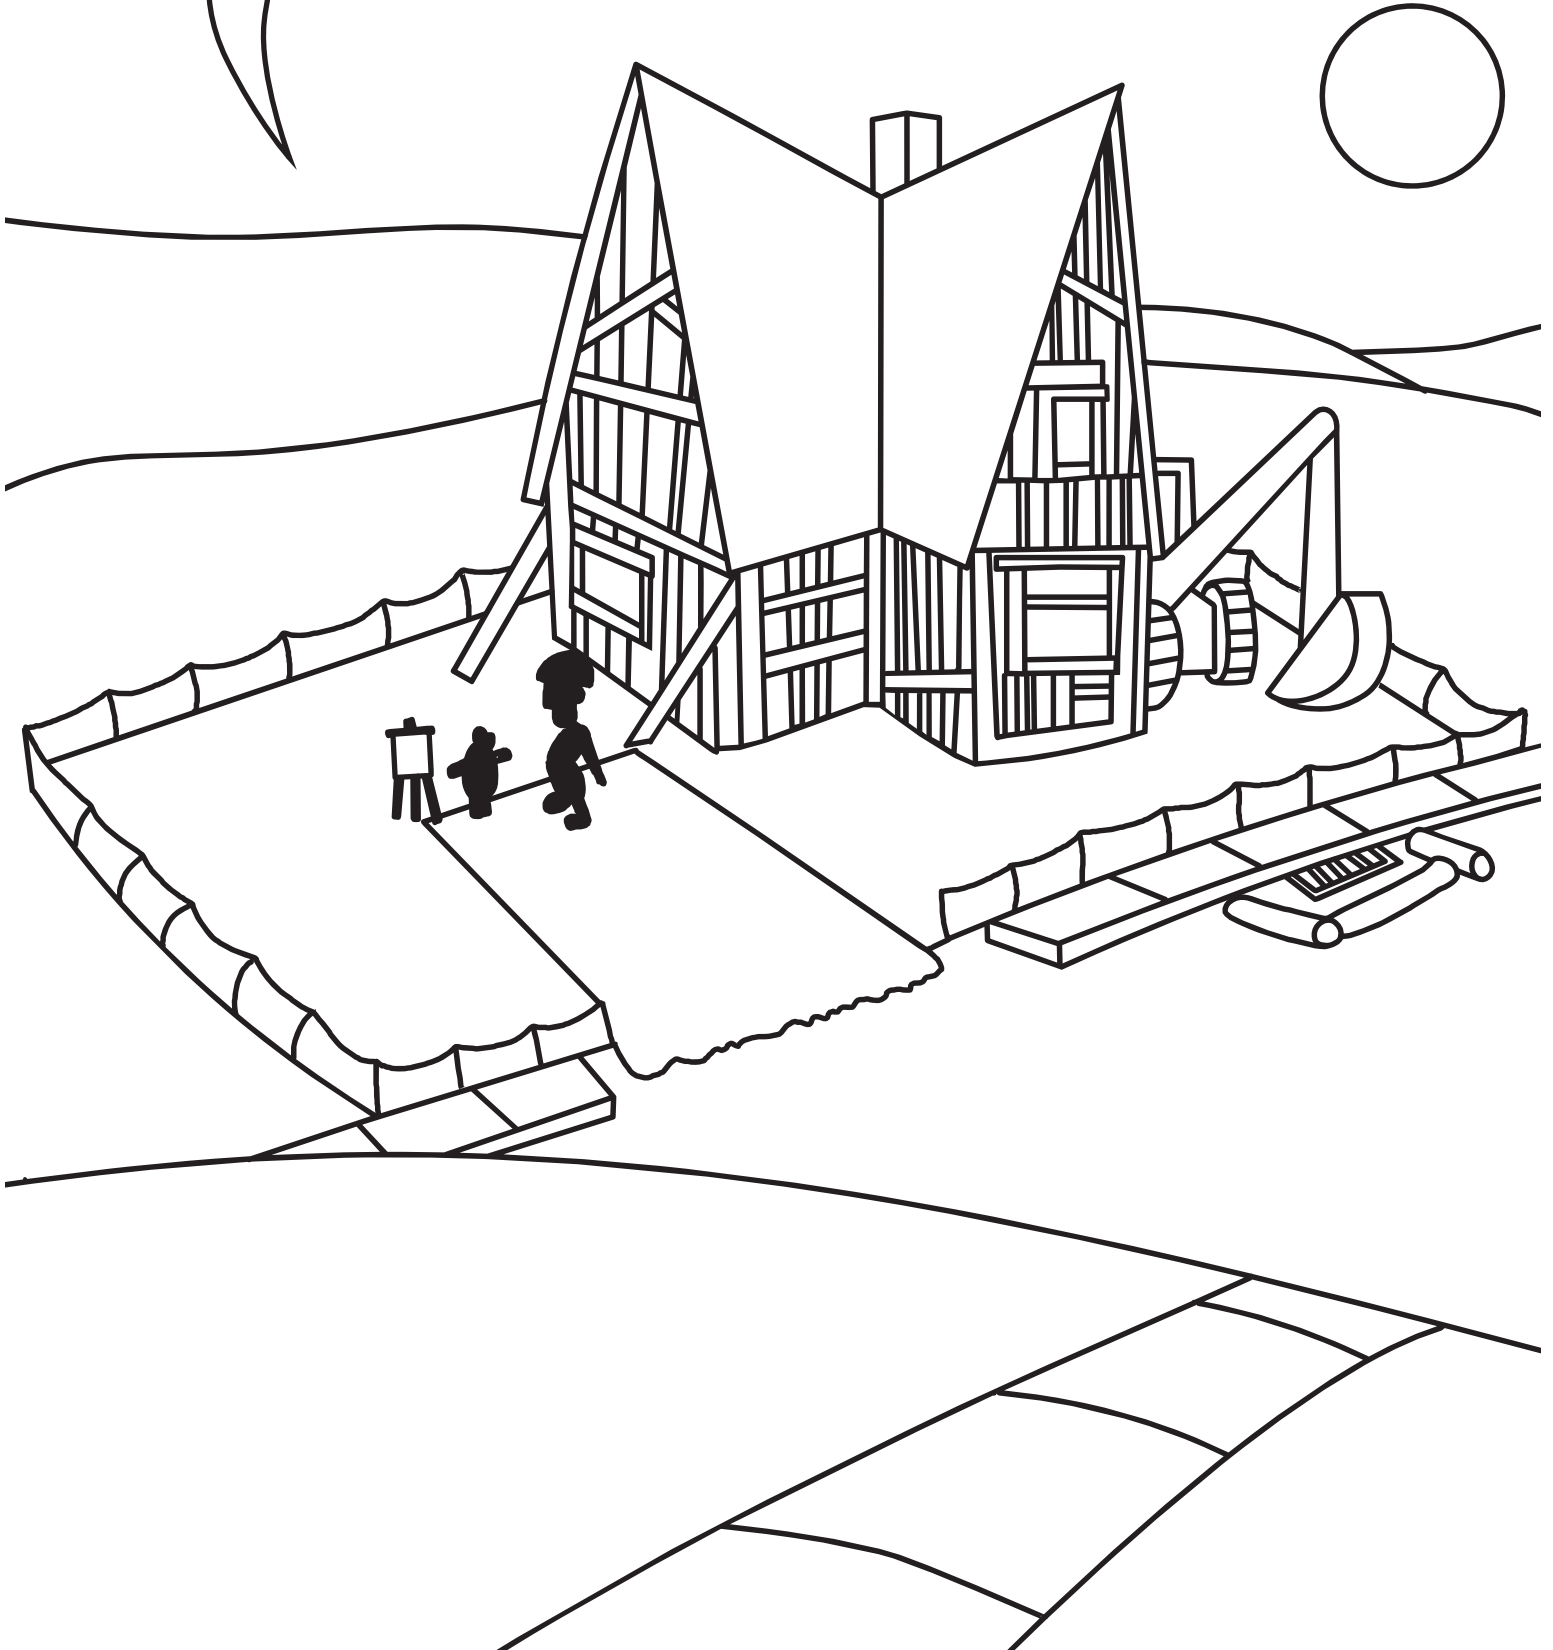

What you dump
in the storm drain
comes out in the creek!

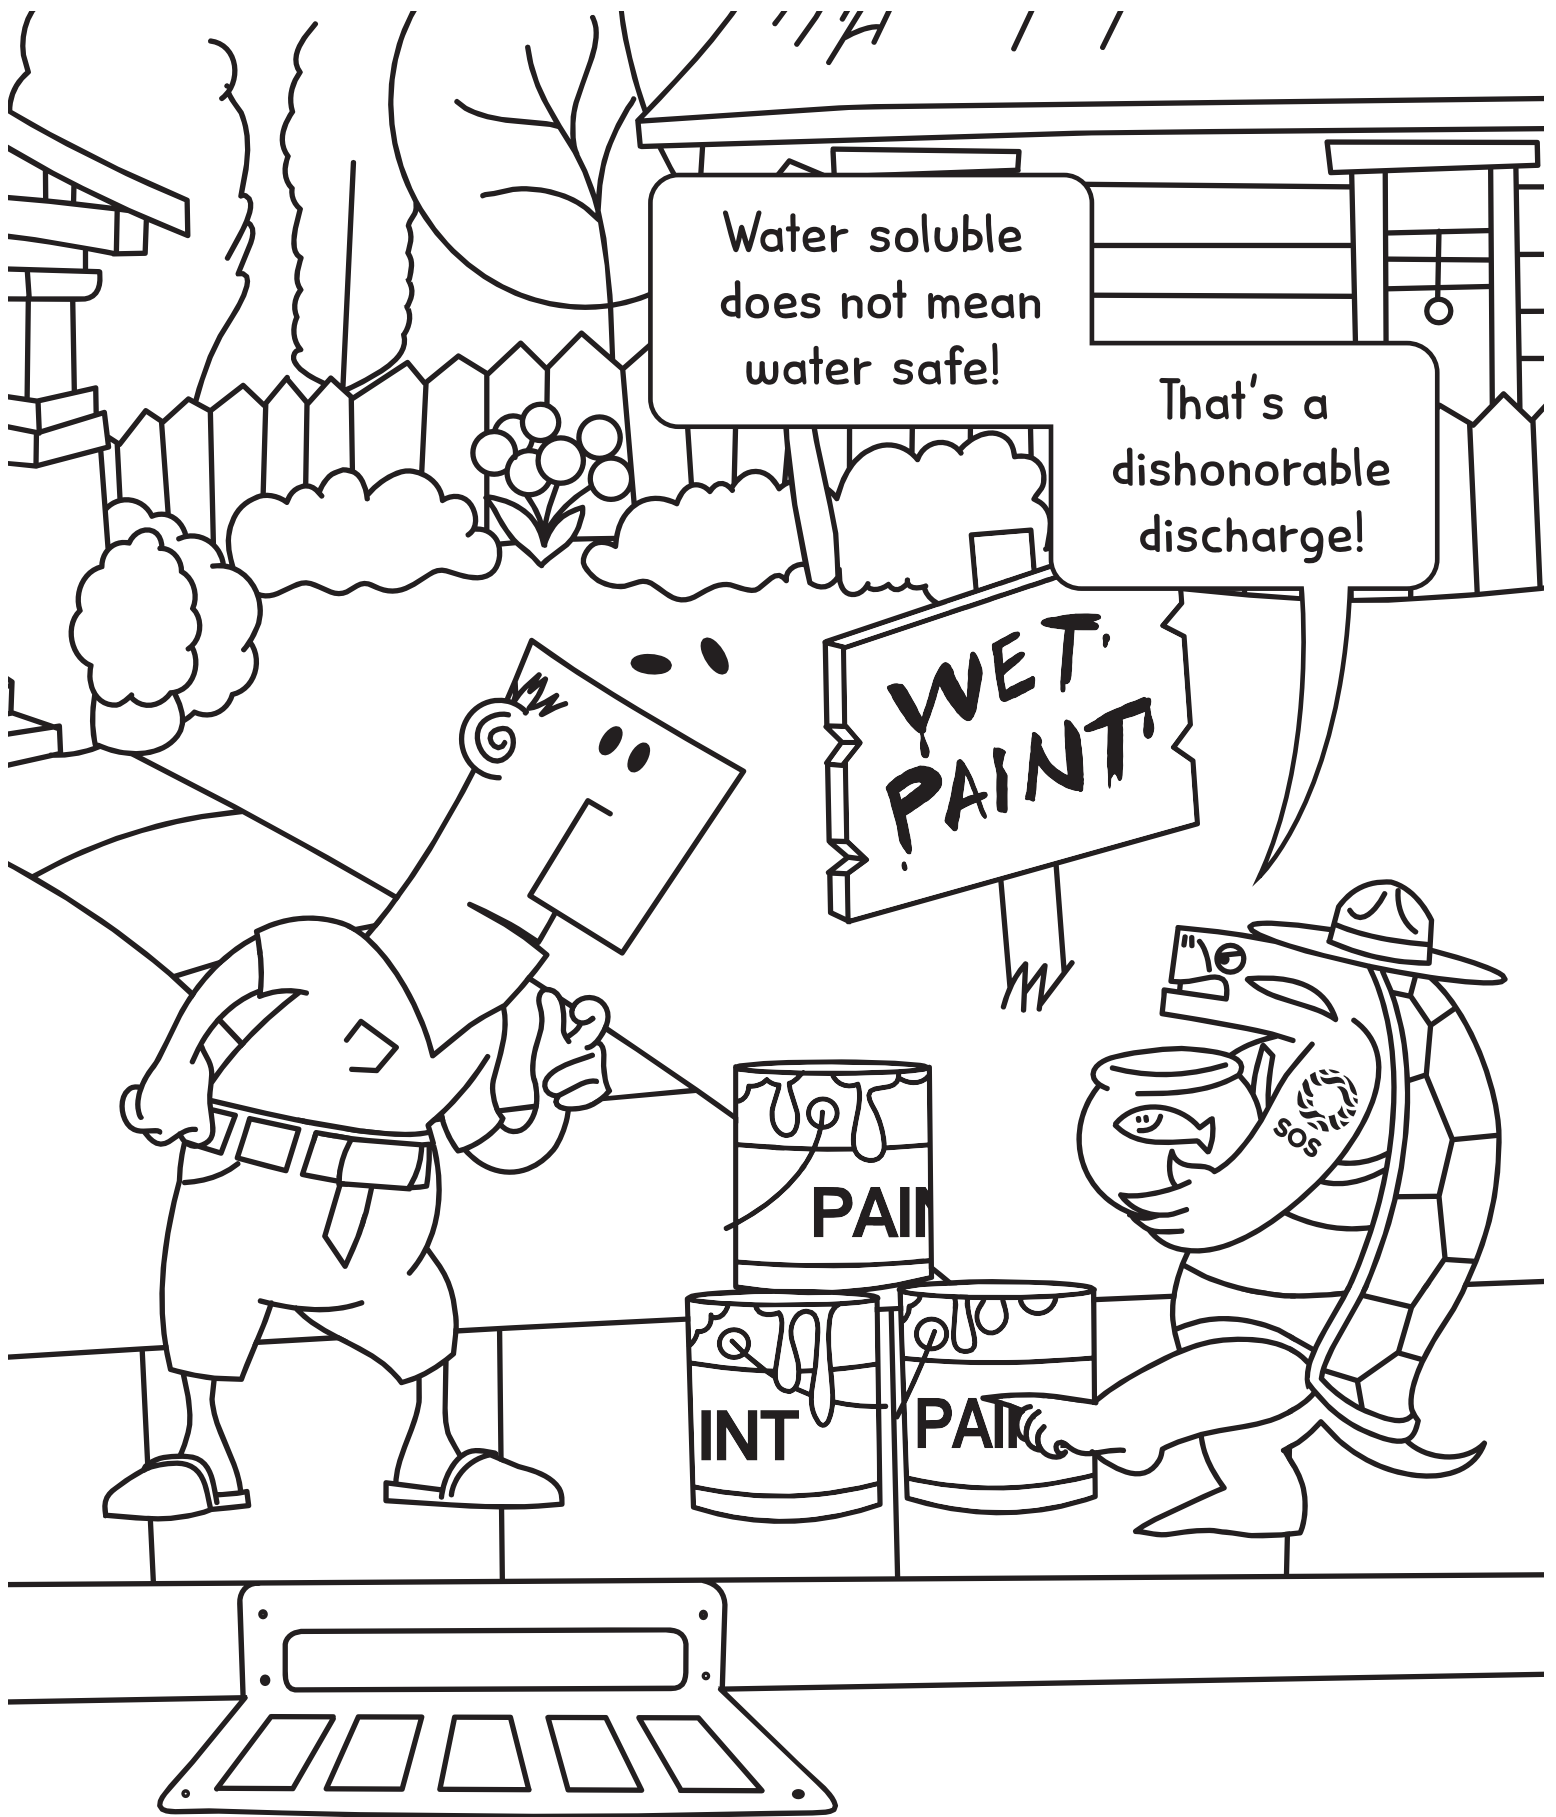

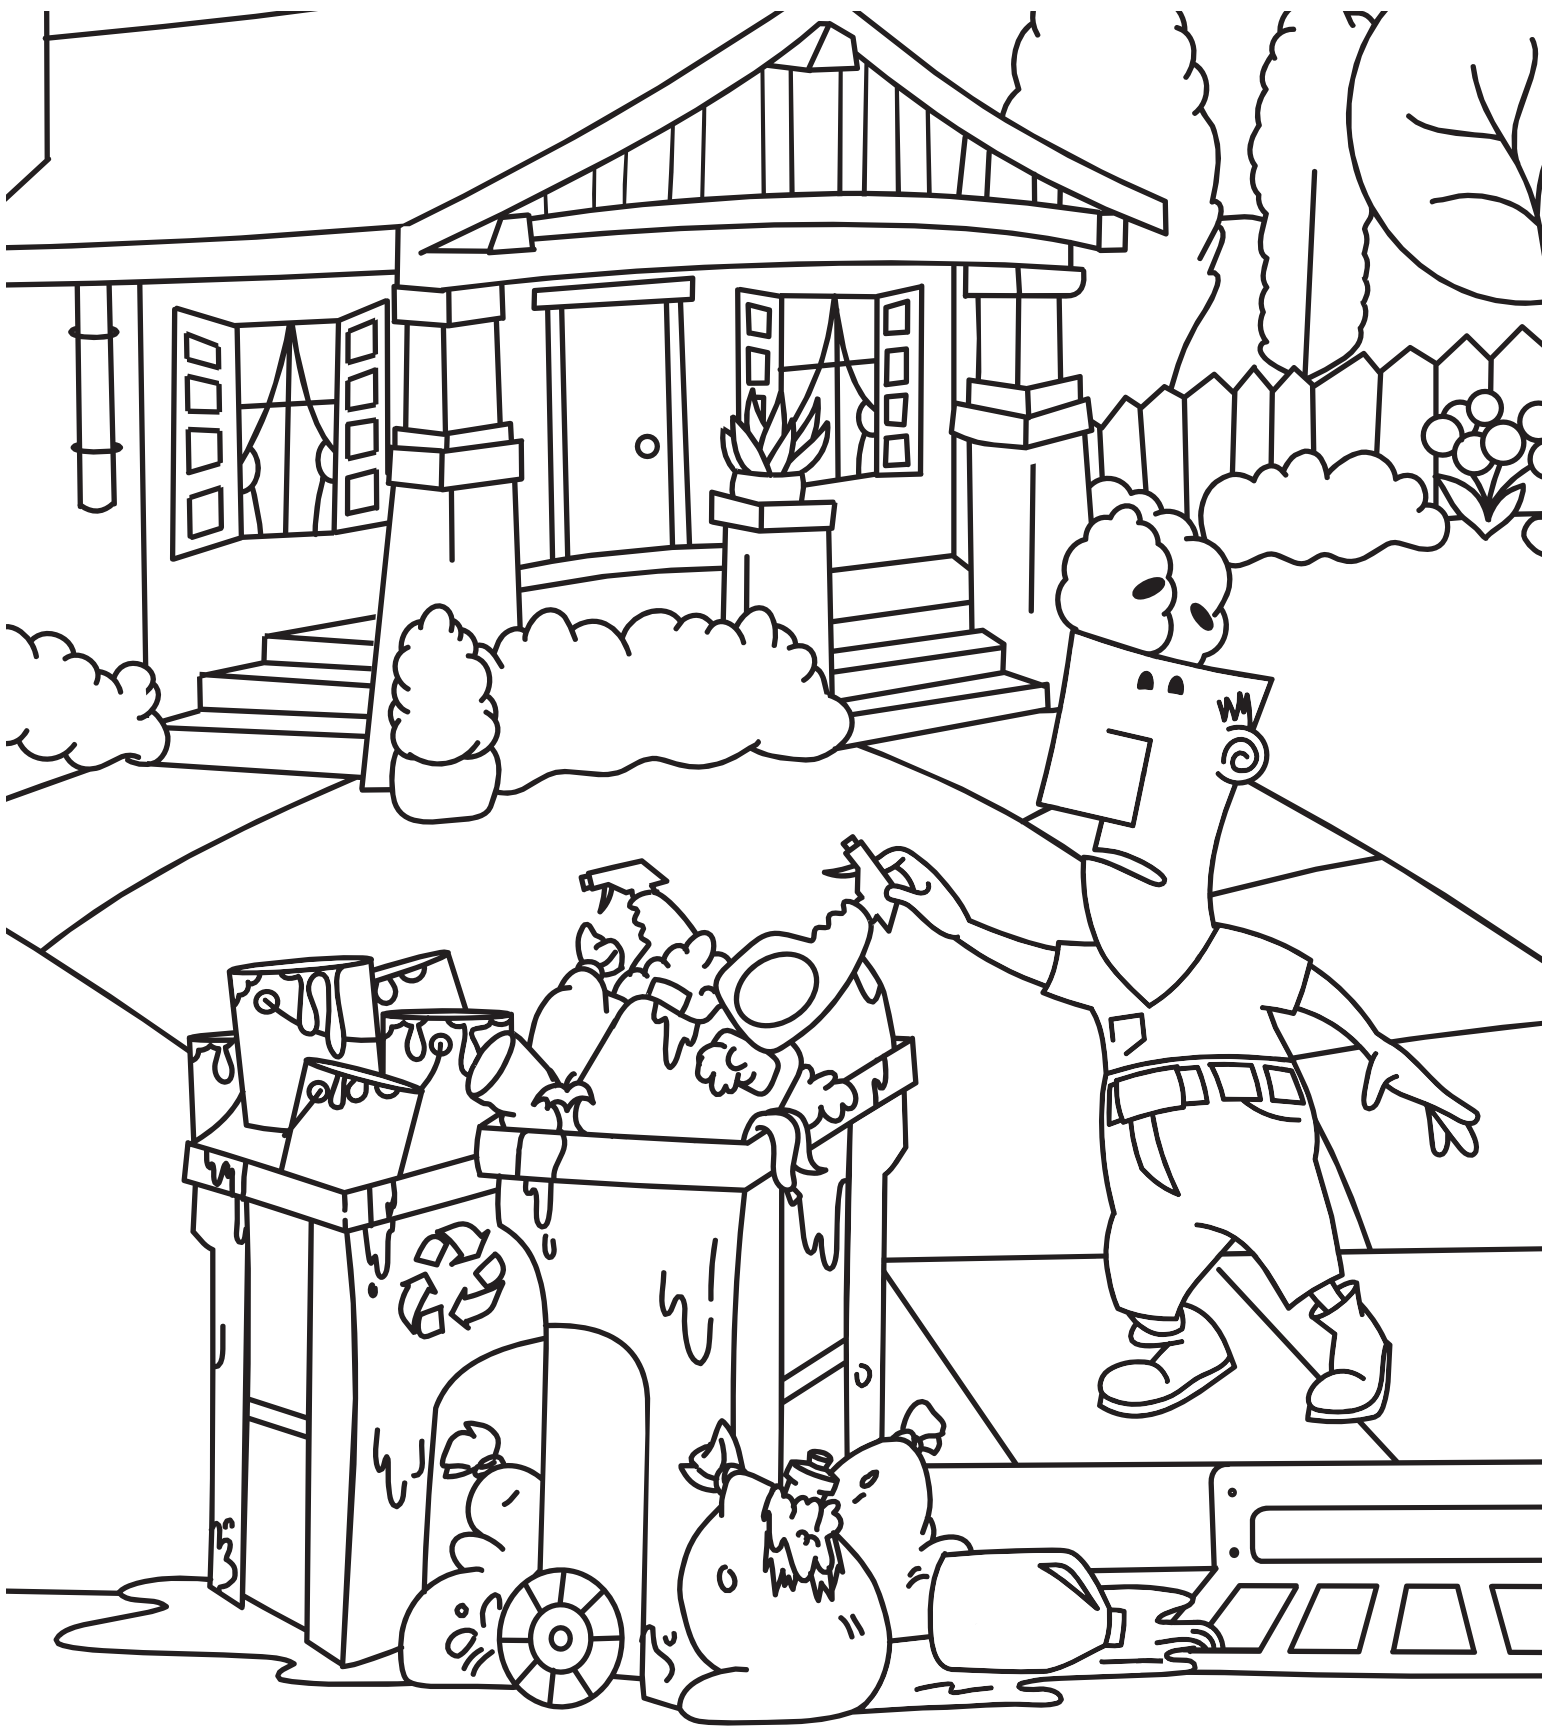

Then Jr. comes home from his fishing trip and hasn't caught a crappie.

All because you didn't use a silt fence and silt socks on your construction site!

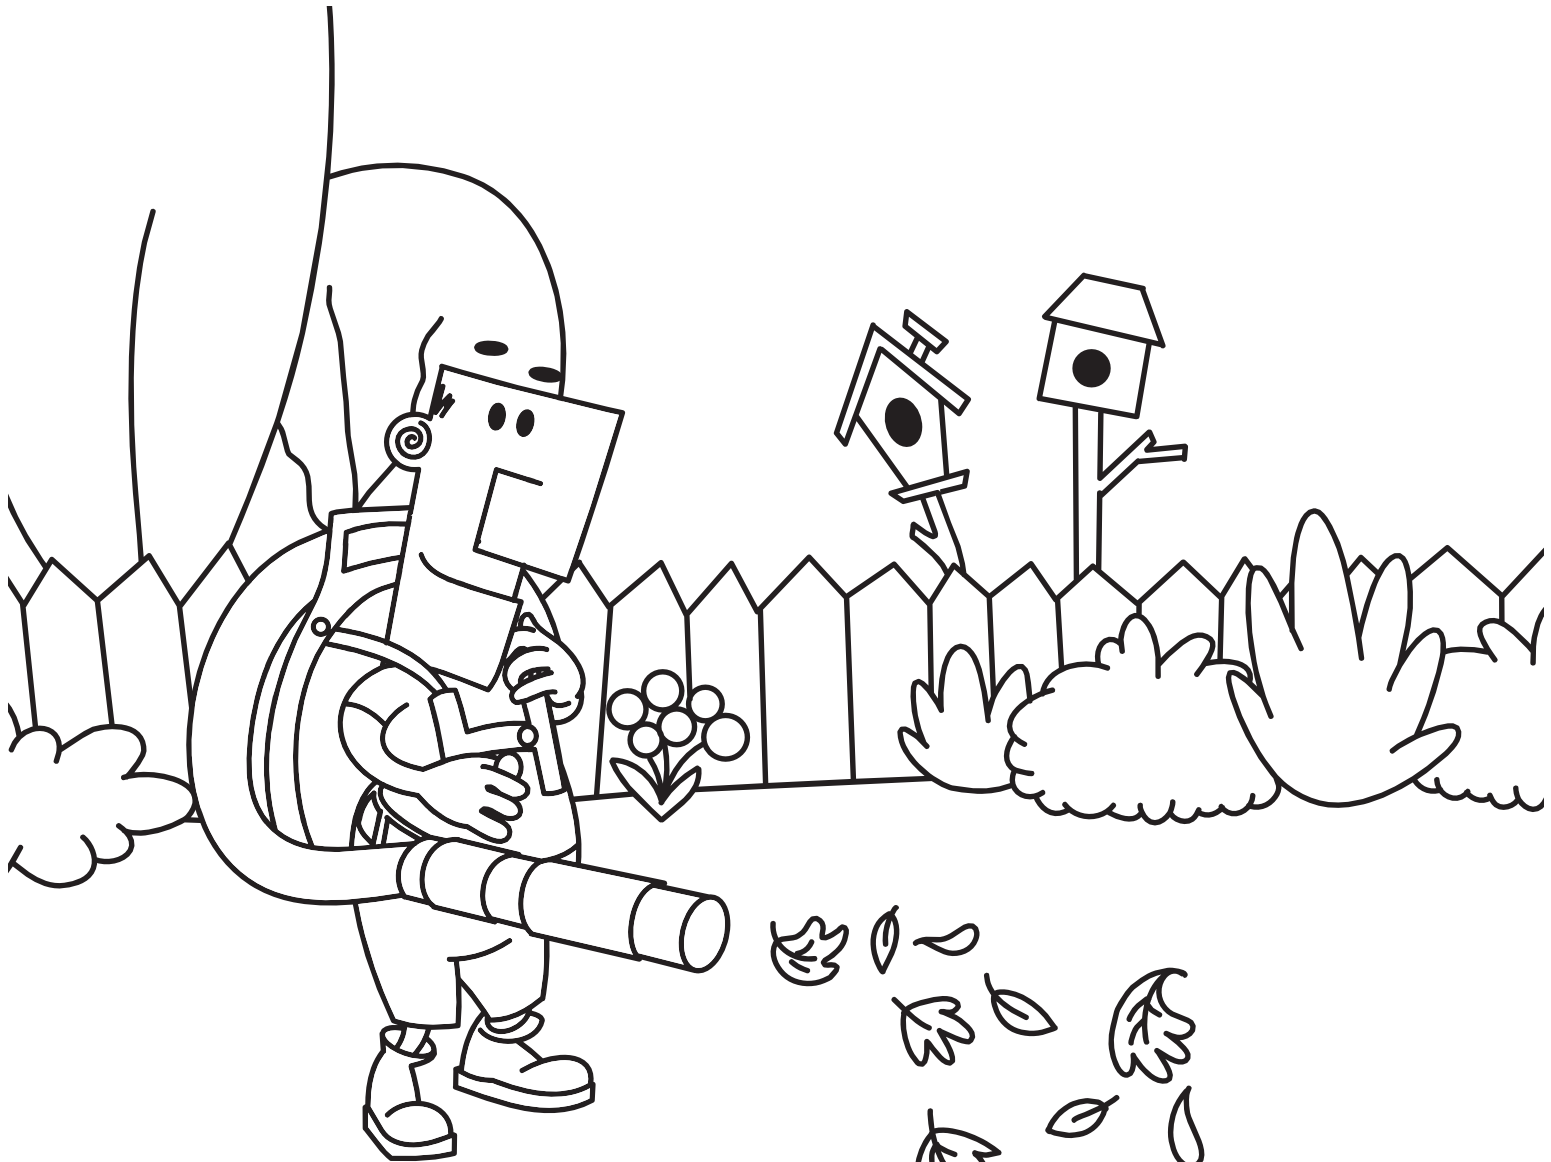

Nobody wants garbage juice!

Gather up leftover household cleaners, oils, grease, aerosol, antifreeze, and batteries.

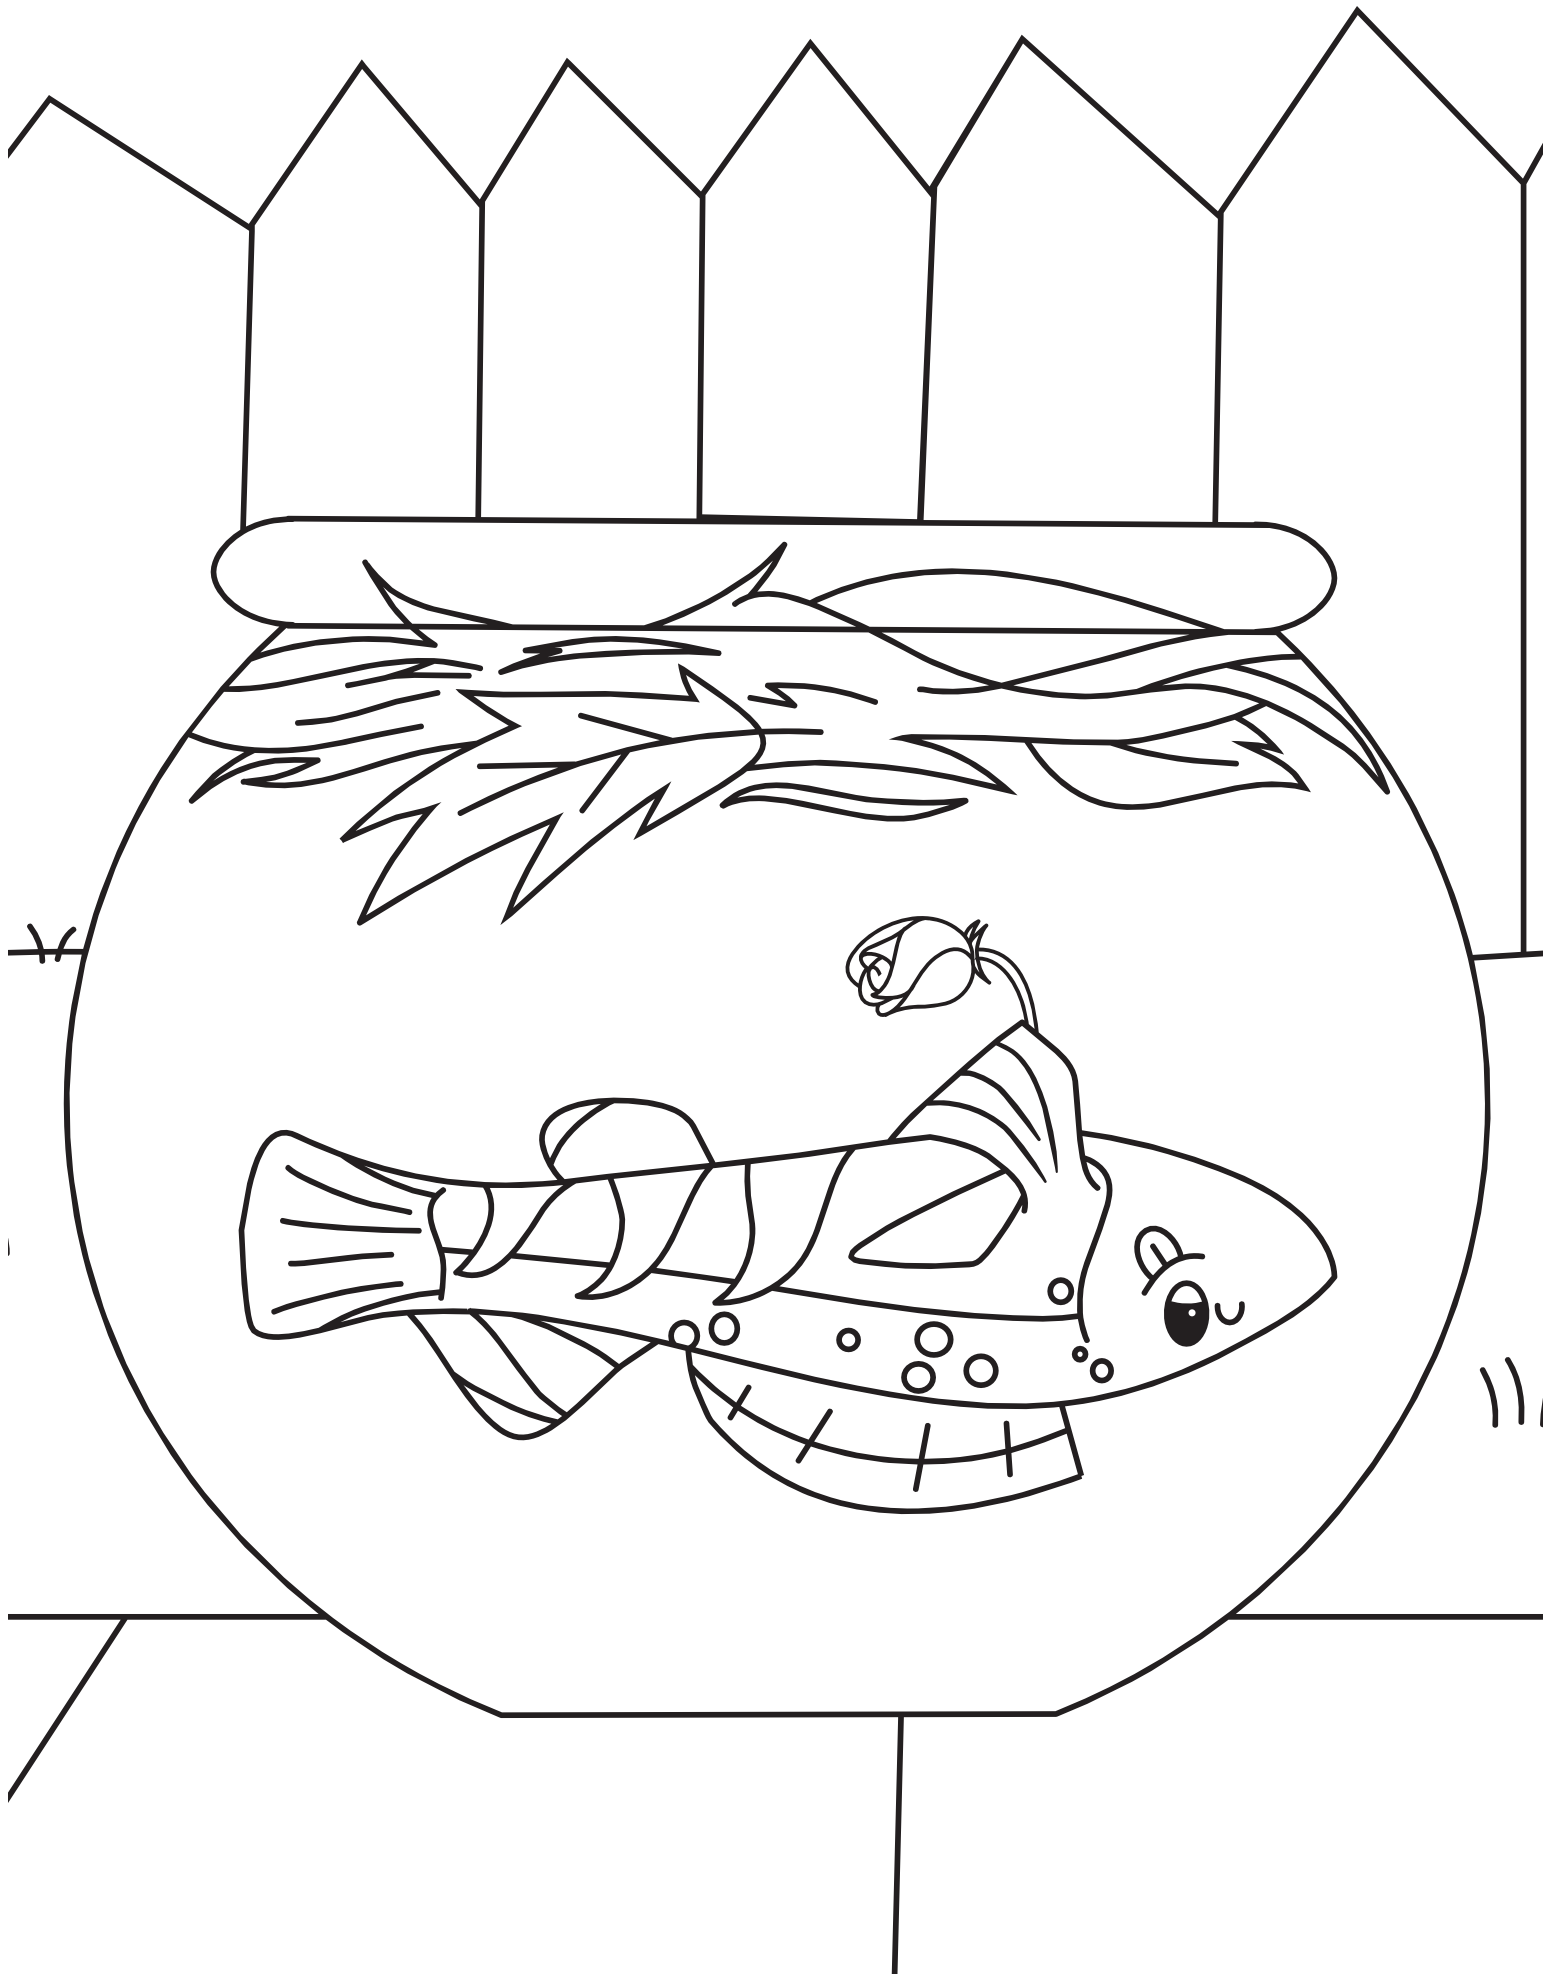

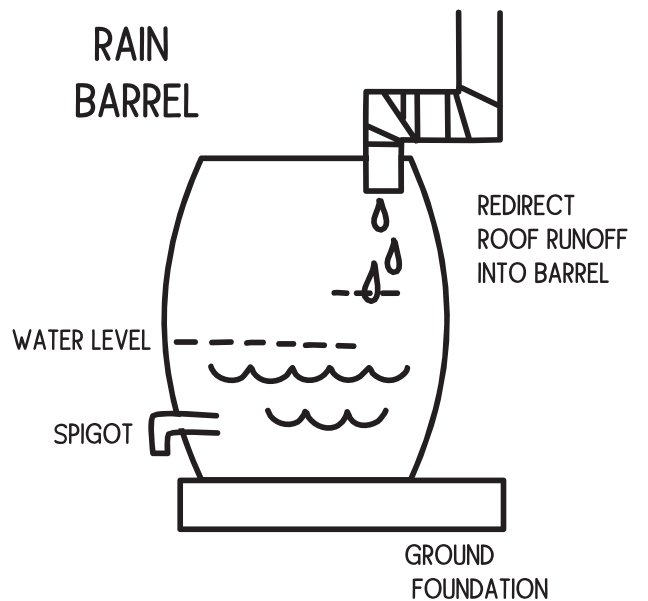

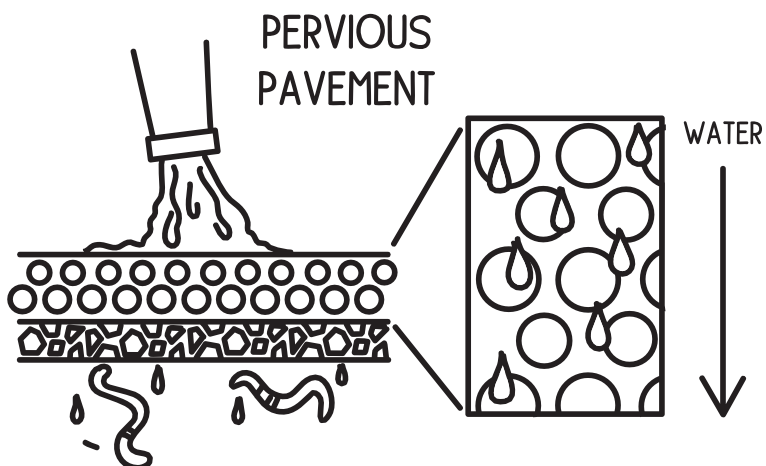

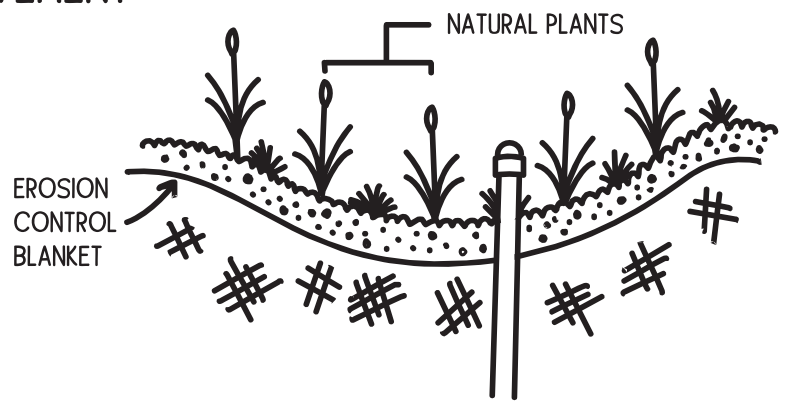

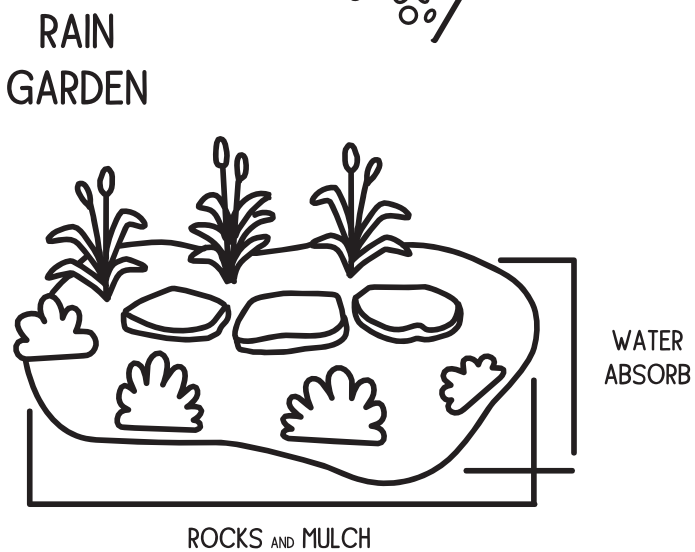

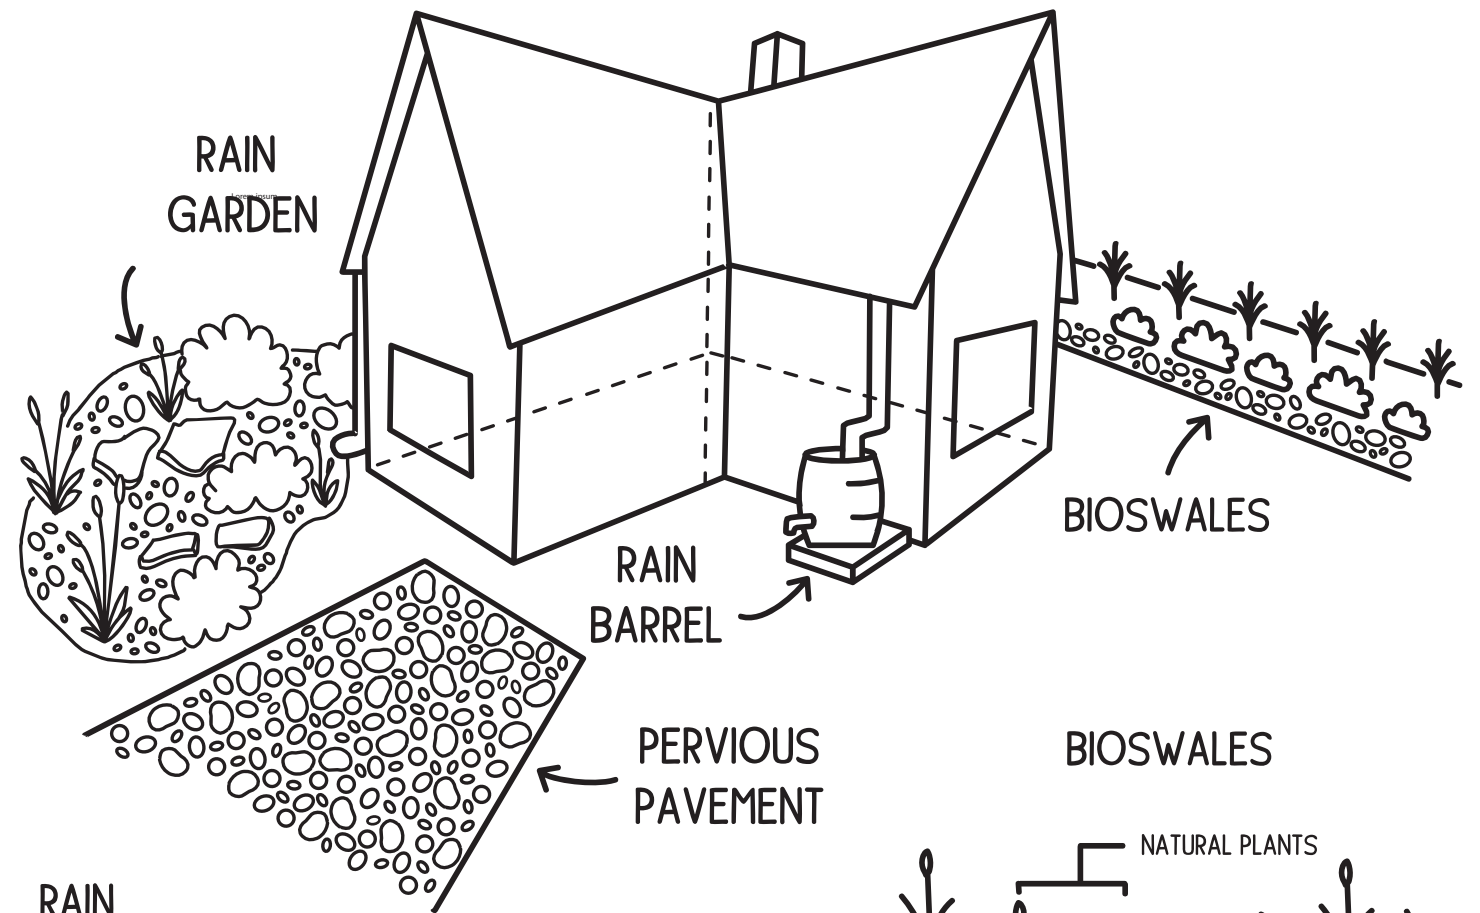

Give toxic chemicals the boot!

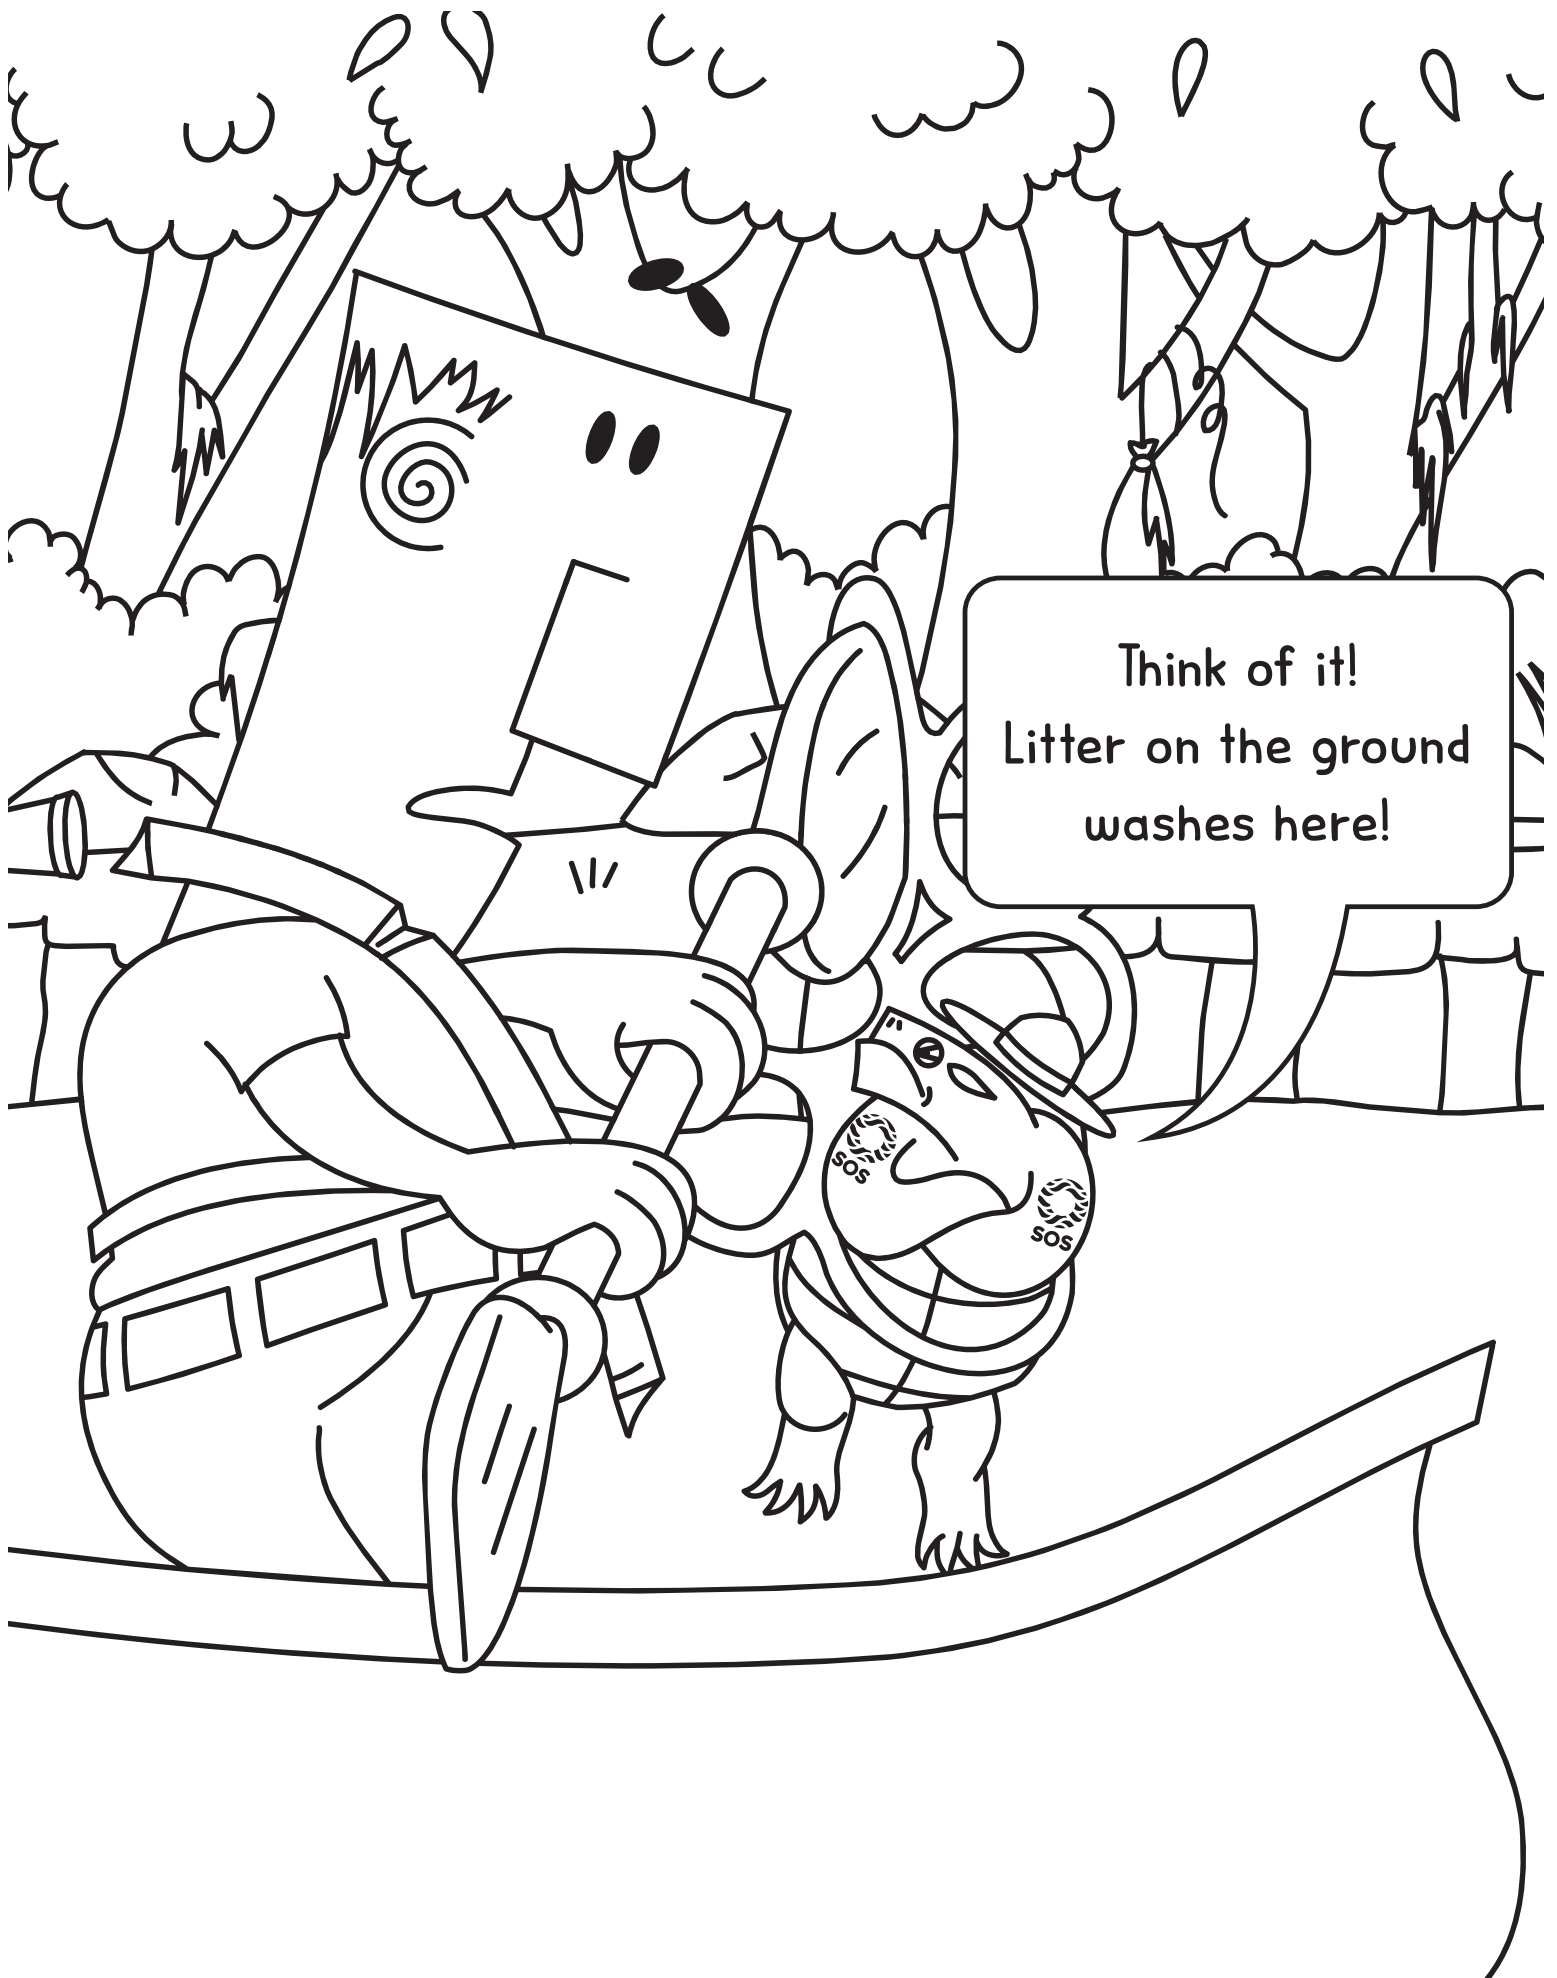

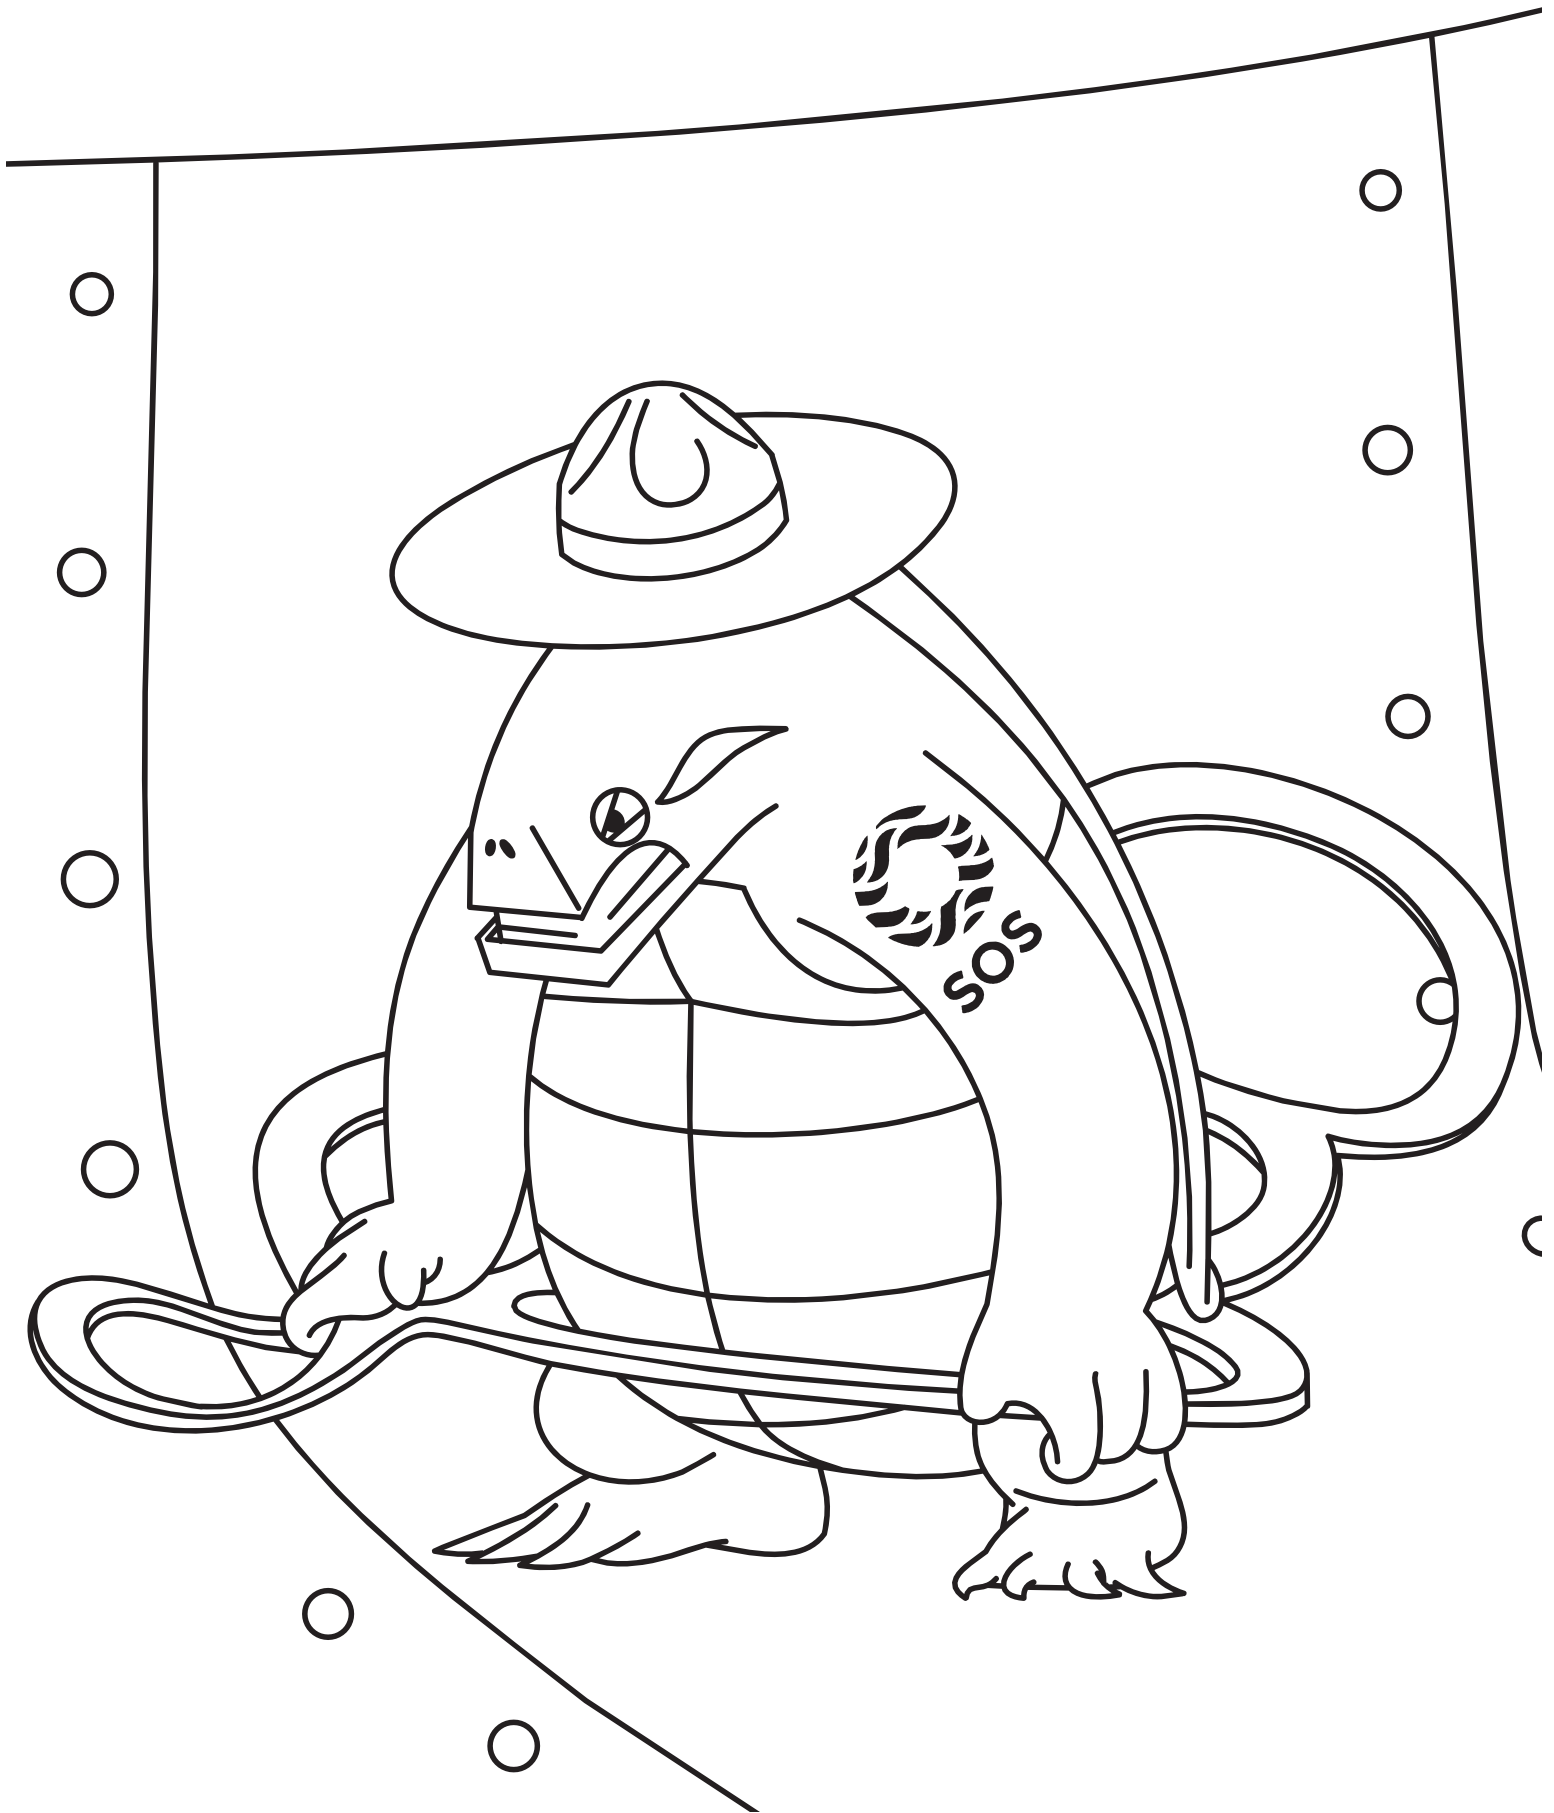

Your leaves and grass
are washing into storm drains
which causes flooding!

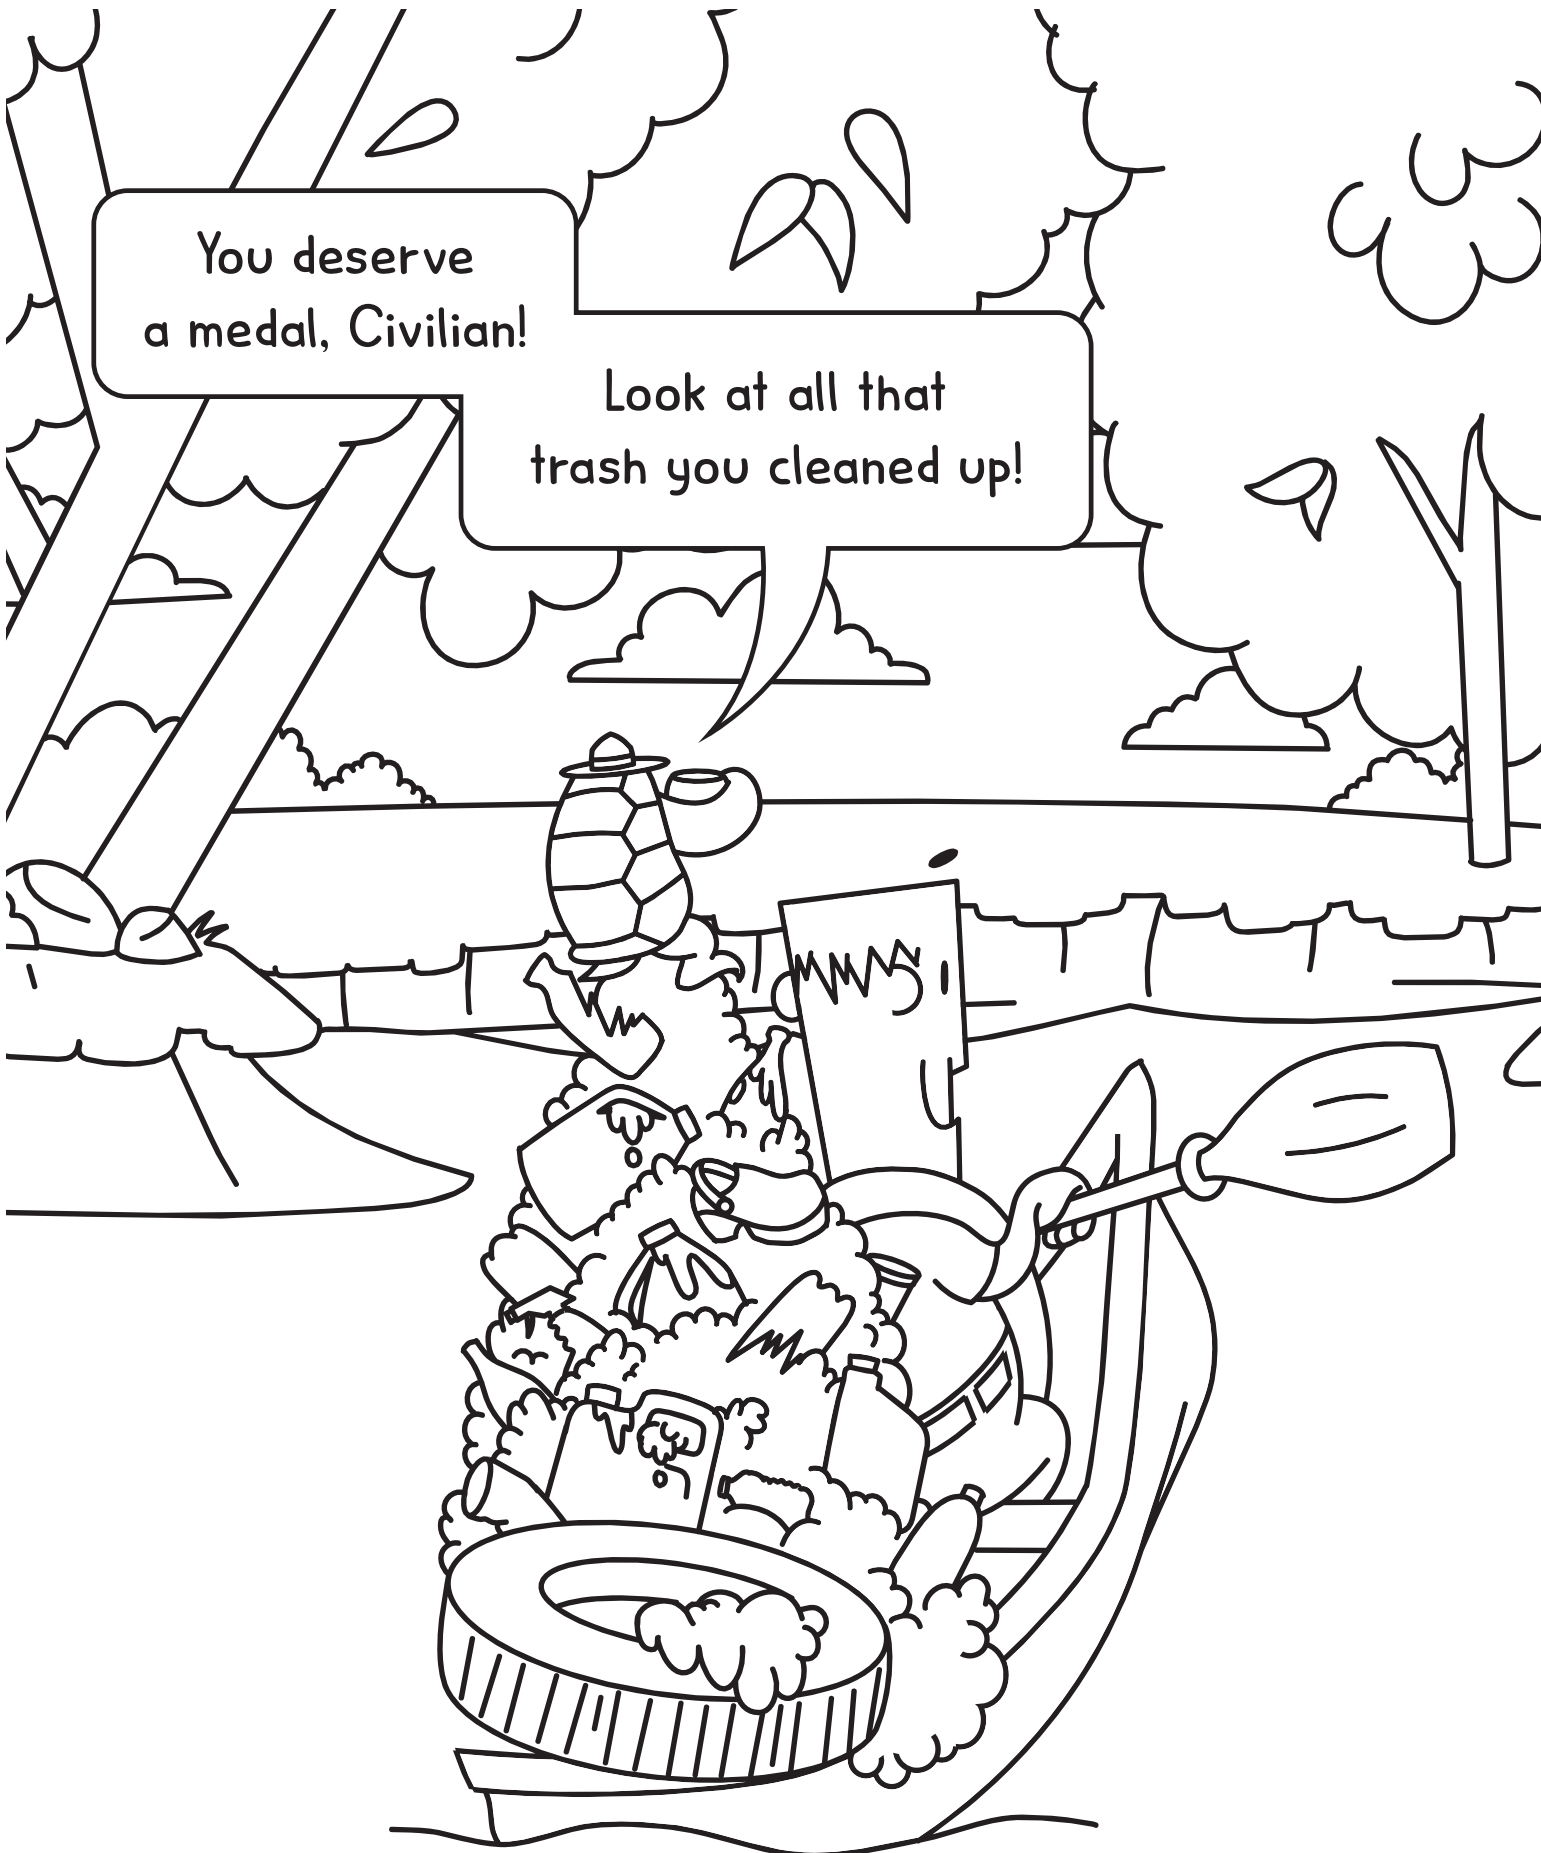

You deserve
a medal, Civilian!

Look at all that
trash you cleaned up!

If it's in the creek
and doesn't look like water,
it's a Dishonorable Discharge!
